“Clean windows 10 installation” instructions

Your PC has become infected with malware? You don't know exactly how to reinstall your system correctly? Our updated “Clean windows 10 installation” instructions provide step-by-step advice to help you run a clean install on your PC and simultaneously reduce the risk of a reinfection.

Maybe you have already been affected by a malware infection and had to reinstall your PC in the past before? That's sometimes easier said than done, as you have to make sure that your PC doesn't become infected with malware again straight away. And that is just one of all the important points to note.

Help on this topic is provided in our updated “[Clean windows 10 installation \(https://www.ebas.ch/en/clean-windows-10-installation/\)](https://www.ebas.ch/en/clean-windows-10-installation/)” instructions.
