Some places still available: Spring courses 2022

Just about four weeks left, and our popular courses will commence again – and there's still some places available! If you would like to improve your digital security, attend one of our "eBanking – but secure!" courses!

This spring, we are offering the following on-site and online courses for different target groups. We are sure you will find the one just right for you as well – Do register today (https://www.ebas.ch/course) !

Basic course
Our basic course will teach you about current Internet threats and the basics of easily protecting yourself – with our "5 steps for your digital security" – against them. You will also learn how to apply some simple rules for secure e-banking.

NEW: Online course mobile banking/payments
This online course focuses on how to securely handle mobile devices. You will be introduced to mobile banking and mobile payments, find out about current threats and learn the basics of how to best protect yourself.

Online course for the under-30s
This online course will teach you how to use your smartphone securely. Next to basics, we will also show you what's important to know when using social media (WhatsApp, Instagram & Co.), and how to securely use clouds. And last but not least, there's some useful tips on secure mobile banking und mobile payments.

Online course for SMEs
Is your organisation sufficiently secure? New legal requirements, a growing IT complexity, an increasing use of mobile technology, a move towards cloud use, plus organised crime – all these make security, and above all IT security, an absolute must. Take this course to learn which steps you can take to significantly strengthen your organisation's IT security.

You can find our Course overview (https://www.ebas.ch/en/course-overview/) here.
