Spring 2025 courses

Protect yourself in the digital world with our popular courses. They offer you the know-how required to protect your data and devices and to also use your e-banking and mobile banking facilities or cryptocurrencies safely. Next to our online program, we will offer courses on site once again, too!

“eBanking – but secure!” (EBAS) offers a variety of courses. With basic courses right up to special ones (for instance dealing with mobile banking and mobile payments or cryptocurrencies), there is something for everyone. And the best thing: **on-site courses in a variety of Swiss towns** are once again part of the program this year, too!

Have a look at [all our courses offered \(https://www.ebas.ch/course\)](https://www.ebas.ch/course) here and register for one today!
