Navigating your everyday digital finances safely

Cyber-criminals don't sleep – but you can protect yourself! Our current “eBanking – but secure!” courses will teach you how to use e-banking, mobile payments and cryptocurrencies safely. Next to our online courses, we will offer courses on site this year again, too!

Our hands-on courses provide you with the know-how required to recognise scamming attempts and protect your finances and data in an easy and clear manner. And the best thing: **on-site courses in a variety of Swiss towns** are once again part of the program this year, too!

Have a look at [all our courses offered here \(https://www.ebas.ch/course\)](https://www.ebas.ch/course) and register for one today!
