# Can you recognise phishing?

**Fraudsters are targeting your confidential data, such as passwords and credit card details. Their scams are becoming increasingly sophisticated, not least thanks to artificial intelligence.**

Phishing scams are on the rise, and the methods used are becoming increasingly sophisticated.

In our short, free webinar, we'll show you the tricks scammers use and why their methods are so convincing. You'll learn how phishing attacks work and how to spot them in time and protect yourself effectively.

**Do apply today, free of charge:**
