About us

«eBanking – but secure!» is an independent platform of the Lucerne School of Information Technologies meant to assist you in retaining your personal information security, with a focus on e-banking.

«eBanking – but secure!»

On our website www.ebankingbutsecure.ch, interested parties will find practical information on measures and rules of conduct required for the secure use of e-banking applications.

Lucerne School of Information Technologies was charged with the creation of this portal by leading Swiss financial institutions, and is currently supported by over 90 financial institutions from all over Switzerland and the Principality of Liechtenstein.

This website is available in four languages. We would like to thank our translators:

- French: Anne Buffard
- Italian: Matteo Cais
- English: Jutta Schandel

We would like to thank our longstanding and valued partners:

- Haute école d'ingénierie et d'architecture Fribourg (https://www.heia-fr.ch/)
- Scuola universitaria professionale della Svizzera italiana (SUPSI) (https://www.supsi.ch/)

for their French and Italian language courses.

Lucerne School of Information Technologies

The most extensive range of computer science courses offered under one roof

The Lucerne School of Information Technologies offers Bachelor and Master study courses, application-oriented research and development plus a range of professional development courses in the fields of computer science and business informatics, all at one campus. It is our educational and advanced educational programmes of Bachelor in Information & Cyber Security (https://www.hslu.ch/de-ch/informatik/studium/bachelor/information-and-cyber-security) and CAS-/MAS in Information & Cyber Security (https://www.hslu.ch/de-ch/informatik/weiterbildung/information-security-and-privacy) in particular which impart the required expertise to protect corporations and administrations alike against hacker attacks and provide them with a secure IT infrastructure.

Would you like some further information? Then please contact (https://www.ebas.ch/en/contact/) us. We will be pleased to provide you with additional details.
