

Basic course

Our basic course will teach you about current Internet threats and the basics of easily protecting yourself – with our “5 steps for your digital security” – against them. You will also learn how to apply some simple rules for secure e-banking.

Course content

First part: **Current threats on the Internet**

Second part: **5 steps for your digital security**

- 1 – Backing up data
- 2 – Monitoring data via antivirus software/firewall
- 3 – Prevention with software updates
- 4 – Protecting online access
- 5 – Exercising care and remaining alert

First part: **Some simple rules for secure e-banking**

This course will make you aware of critical threats on the Internet; show you how to protect yourself and your devices against them; and teach you about secure e-banking!

Target groups and preconditions

People wanting to find out how to securely use their computer (Windows and macOS), smartphone and tablet, and how to securely do their e-banking.

No specific previous knowledge required.

Course overview

“eBanking – but secure!” offers a variety of other courses, too.

You can find our [course overview \(https://www.ebas.ch/en/course-overview/\)](https://www.ebas.ch/en/course-overview/) here.

Testimonials

“Thank you! Taking the course was well worth it, and was even proper fun!!! I now feel really secure when e-banking!”

“E-banking explained simply and securely. Can be put into practice as it stands. Thank you very much.”

“Although I have been e-banking for a long time and generally always felt secure, I have profited a lot. It was excellent!”
