

Basic courses

This basic course will point out current threats on the Internet and conveys measures as to how you can protect yourself by taking some simple measures.

Course content

First part: Protect yourself with our «5 steps for your digital security».

Learn how to apply the «5 steps for your digital security».

1. **Back up** your data
2. **Monitor** your devices using anti-virus software and a firewall
3. **Prevent** by updating your software
4. **Protect** online access
5. **Exercise care** and remain alert

Second part: Some simple rules for secure e-banking

Learn how to safely e-bank observing just a few simple rules.

Costs

Courses will cost 60.00 CHF each and will be invoiced about a week before the course date.

You can cancel your course free of charge up to two weeks before it takes place. After that time, the full amount will become due.

Testimonials

«Thank you! Taking the course was well worth it, and was even proper fun!!! I now feel really secure when e-banking!»

«E-banking explained simply and securely. Can be put into practice as it stands. Thank you very much.»

«Although I have been e-banking for a long time and generally always felt secure, I have profited a lot. It was excellent!»
