

# Course overview

“eBanking – but secure!” offers a variety of courses. Attending one will certainly improve your security!

## Basic course

Our basic course will teach you about current Internet threats and the basics of easily protecting yourself – with our “5 steps for your digital security” – against them. You will also learn how to apply some simple rules for secure e-banking.

[Further information \(https://www.ebas.ch/en/basic-course/\)](https://www.ebas.ch/en/basic-course/)

## Course mobile banking/payments

This course focuses on how to securely handle mobile devices. You will be introduced to mobile banking and mobile payments, find out about current threats and learn the basics of how to best protect yourself.

[Further information \(https://www.ebas.ch/en/mobile-banking-mobile-payments-online-course/\)](https://www.ebas.ch/en/mobile-banking-mobile-payments-online-course/)

## Course cryptocurrency

This course will introduce you to the world of digital currencies. If you are a beginner, you will find out about the best-known cryptocurrencies such as Bitcoin, Ethereum and Ripple. You will also gain insights into the underlying Blockchain technology, into how to trade with cryptocurrencies and set up a wallet and what you have to be aware of with regard to security.

[Further information \(https://www.ebas.ch/en/cryptocurrency-course/\)](https://www.ebas.ch/en/cryptocurrency-course/)

## Course Artificial Intelligence

This event will provide you with an informed yet easy-to-understand introduction to the world of Artificial Intelligence (AI). You will learn how AI systems understand language, generate texts and make decisions. In addition, we will look at current fields of application, from customer support to fraud detection, and will demonstrate how criminals abuse AI for cyber-attacks and deepfakes.

## Course for SMEs

Is your organisation sufficiently secure? New legal requirements, a growing IT complexity, an increasing use of mobile technology, a move towards cloud use, plus organised crime – all these make security, and above all IT security, an absolute must. Take this course to learn which steps you can take to significantly strengthen your organisation's IT security.
