

Have I Been Pwned

Are your online data affected by a data leak? Find out by entering your user name, e-mail address or telephone number below.

Online services are hacked on quite a regular basis, and the captured data, such as e-mail addresses or passwords, are subsequently published. The [Have I Been Pwned](https://haveibeenpwned.com/) (<https://haveibeenpwned.com/>) service pools information on any data leaks which have come to light to make them available to the public. This is an easy way for anyone to find out whether they are affected by a data leak.
